

Campaign tracker: the story so far

- Fruit trees planted in January - March 2011 period: 20,872
- Total fruit trees planted so far: 193,088
- Location: Malawi, Africa
- **Type of trees:** we are focusing on **Guava** and **Papaya** trees, both of which grow quickly and provide abundant fruit. Guava trees grow in 4-5 years whilst Papaya trees grow in 2-3 years
- In association with our friends at **Ripple Africa**

Focus: Makwalakwata Primary School tree nursery success story

- For three years now, this school has been growing and planting trees, and the results are inspirational to other schools in the area
- This year, they have successfully grown 2,200 trees from seedlings planted, and the 10 pupils who have been responsible for the nursery have done an excellent job
- It would be wonderful to get more schools to learn from this example because the children of today need to know how to protect their environment for the future
